

Memorandum

MIAMI-DADE
COUNTY

Date: May 17, 2016

To: Honorable Chairman Jean Monestime
and Members, Board of County Commissioners

From: Carlos A. Gimenez
Mayor

Agenda Item No. 8(F)(14)

Subject: Request for Additional Expenditure Authority to Contract No. 43230000-15-2, Licensing Solutions Providers of Microsoft Licenses and Services

Recommendation

It is recommended that the Board of County Commissioners (Board) authorize increased expenditure authority of \$6,965,000 to *Contract 43230000-15-2, Licensing Solutions Providers of Microsoft Licenses and Services* for the Information Technology Department. This contract will provide for the purchase of Microsoft application and server licenses, software maintenance, and subscription services under the Microsoft Enterprise Agreement program from the awarded Licensing Solutions Provider, SHI International Corp. The County Mayor, under his delegated authority, approved the County's access of this competitively-awarded State of Florida contract in April 2016 to complete at least a one (1) month payment. Due to delays in the State of Florida's award of this contract, the payment was required to obtain these services until this request for a modification could be presented to the Board for approval. The one (1) month commitment did not bind the County to enter into the annual term of the Microsoft Enterprise Agreement program requested herein.

The County uses Microsoft application software such as Outlook, Word, and Excel in support of countywide operations as well as server software to provide the backend for numerous operational systems. Additionally, Microsoft provides cloud-based file storage that enables additional storage capacity beyond what is currently provided by the Information Technology Department as well as access to Azure Government cloud services to host various applications such as the Community on Patrol mobile application. The additional funds are needed to allow the Information Technology Department to enter into a new annual term for the continued use of Microsoft licenses and services on behalf of all County departments.

Historically, Microsoft did not permit local entities to enter into the Enterprise Agreement program outside of the State of Florida contract. However, as a result of negotiations, Microsoft has agreed to allow the County to begin an independent agreement. During the one (1) year access of this contract, the County will conduct a competitive solicitation to select a Licensing Solutions Provider so that the County will no longer be reliant on the State of Florida as a contract source. The discount level in the replacement contract will be at least the same volume level as the State of Florida contract and the County will seek to further negotiate with the Licensing Solutions Provider selected via the competition to ensure the best value to the County.

Scope

The impact of this item is countywide in nature.

Fiscal Impact/Funding Source

The contract has an existing allocation of \$990,000. The requested modification will authorize additional expenditure authority of \$6,965,000, increasing the total contract value to \$7,955,000. The requested allocation is based on the historical annual cost and anticipated purchases during the one (1) year term.

Department	Existing Allocation	Additional Allocation Requested	Modified Allocation	Funding Source	Contract Manager

Track Record/Monitor
